## DESIGNERTIPS

# 1 2 3

One of the most popular trends for floors and walls involves a play on pattern. Incorporate herringbone installs, contrasting grout colors, or texture for ultimate tile style.

For something unexpected, mix two or three colors of wood look planks together to create a dramatic look that will make your modern makeover one-of-a-kind.

Use tile in unconventional ways, two story tile fire places, 3D tile accent walls, and tile moving outdoors will be all the rage this year.

# STRIKING MOVEMENT

To say we have a thing for high-drama veins is the understatement of the year. And we're in great company. Designers and homeowners near and far have launched these daring movement surfaces—hello marble look quartz—into must-have territory. Is anything better on waterfall islands?
